STRONG CORPS OF TEACOERS FOR 1912-FRUIT SHOWER

The annual meeting of the Methodist Episcopal Ladies' Aid society, held Thursday afternoon in the chapel, and presided over by the president, Mrs. Guy E. Davis, was an enthusiastic event and the largest meeting held in a long time, about 125 ladies being in attendance. Yearly reports were presented by the secretary, Mrs. Webster Pearce and by the treasurer, Mrs. W. J. Clarke.

Officers for the coming year were elected as follows: President, Mrs. W. J. Clarke; first vice-president, Mrs. Guy E. Davis; second vice-president, Mrs. John Wirth; recording secretary, Mrs. Belle Thompson; corresponding secretary, Mrs. Gertrude Erwin; treasurer, Mrs. Elmer Brown.

Mrs. George Lockwood spoke appreciatively of the work of Mrs. Davis as president and proposed a rising vote of thanks. The suggestion was warmly responded to, for the activity shown and the progress achieved under the inspiring presidency of Mrs. Davis have been notable.

A pleasant feature of the afternoon was a fruit and pickle shower given Mrs. Leeson. Over 80 cans of fruit, and pickles, besides fresh fruit, was presented her, and it was warmly appreciated by herself and household.

A supper followed the afternoon meeting, at which certainly 230 covers were laid. Each member had invited one guest, and the society as a whole entertained the official board of the church and the local ministers of the denomination residing in this city. Among the guests from out the city were Mrs. Charles Samson of Detroit, Mrs. Mary Fairchild Grenville of California, and Edgar Comstock of Constantine.

GAS EXPLODES; RUINS HOUSE

Heavy Stove Is Hurled Over Grand Rapids Child.

Grand Rapids, Mich., Oct. 7.—Cornelius N. Bolt, a local hardware clerk, looked for a leaky gas main with a lighted match in the home of John M. Nightingale. An explosion followed which shook the houses for blocks around, hurled Bolt through a wall of the house, blew one end of the residence completely out and carried another section twenty feet away, practically destroying it.

Lucy Nightingale, four years old, was nearly killed by a heavy stove which was hurled through the air directly over her and carried nearly fifty feet into the yard.

ANOTHER YPSI TAXPAYER SEES THE OTHER SIDE

(Communication)

It is true that the Board of Education is asking for a sum of money greater than the cost of the present high school building; but, our present high school building was erected many years ago when building materials were much cheaper, and workmen did not receive the wages they can demand today. It does not seem to the writer that these are parallel cases an dtherefore no comparison between the costs of the two buildings is permissible. While the Woodruff building is comparatively new, yet it is not such a structure as a modern school building should be. The proposed building will be built of vitrified brick (the Board of Education recently expended $800 to paint the brick work alone of the Central school), and every part of the new building from basement up will be as sanitary and fireproof as it can be made. While neither the Woodruff building nor the Training school is of architectural beauty, the new building, though plain in appearance, will add much to the beauty of our splendid city.

It is not a question of Ypsilanti outdoing the state, because its new building (a whole school building) will cost more than the addition to the Training school; it means that the state met its needs in its own way and Ypsilanti must, sooner or later, meet its needs and the requirements of its school children in its own way. Perhaps a smaller building may serve us at present. The time has come when such subjects as domestic science and art, manual training in all its various forms, agriculture, etc., must be taught in our public schools. The girls and boys of today realize that they must have at least a high school education. With the new building on the proposed lines, the attendance will increase even more rapidly than it has within the last few years, for larger opportunities will be offered to all pupils.

While we are building let us build substantially and well and for many years to come.

Pluck of Boy Saves His Life.

Battle Creek, Mich., Oct. 7.—When physicians pronounced Paul Clark, fourteen years old, out of danger they added that his life was saved by his undaunted nerve. Young Clark was thrown from a runaway saddle horse and for about a block he dangled by his foot in the stirrup under the horse's feet. But he had grit enough to grab one of the horse's hind feet and hold on, preventing his head from bumping the pavement or being stepped on.

Wants State to Pay for Sheep.

Lansing, Mich., Oct. 7.—State Treasurer Sleeper received a letter from a farmer in Clare county requesting that the state pay $10 for two sheep killed by a bear last month. In his communication the ruralist sets forth that there is a law protecting the bear and therefore bruin is the property of the state. In order to avoid litigation the farmer urges Treasurer Sleeper to remit at once.

PRESIDENT SEES IDAHO

Makes Stops at Pocatello, Caldwell and Boise.

Political Situation in This State Is Favorable to Taft's Renomination.

Boise, Idaho, Oct. 7.—The thirteenth state on the itinerary of the Taft special has been passed. The president made three scheduled stops in Idaho, at Pocatello, Caldwell and Boise, but he made nearly a dozen short rear end platform speeches at smaller towns along the route.

The political situation in Idaho seems favorable to Mr. Taft's renomination. Though the percentage of insurgency, as individual creed among the voters, is high yet the insurgent politicians have found no leader and there is no prospect practically of any concerted opposition to Mr. Taft before next spring. Senator Borah, who seems to be the only man to whom the progressives could look for such leadership, is playing the same game at home out here that he played in the senate. He is holding aloof and following the lines of his own peculiar and effective progressiveness. As a matter of political expediency he seems to be leaning toward Mr. Taft for the nomination if he is leaning any way at all.

The president in his speeches in Idaho devoted most of his attention to the conduct of the interior department, which is the arm of the government most intimately connected with the people of this section of the country, where the administration and disposition of the public domain is so important a question. He has used every opportunity to sing the praises of his new progressive secretary of the interior, Walter L. Fisher of Chicago.

K. OF P. MEN WORK HARD FOR HONORS

The attendance contest will be continued by the Knights of Pythias at their meeting Monday evening. The two captains are J. Don Lawrence and Mark J. Rust, and last week Mr. Lawrence's side won over the other by 12 points. Mr. Rust's side is hinting at dark developments for Monday evening and will more than make good their losses, they say.

The K. P.'s brought home the big trophy from Ann Arbor when they went over to plty against the Knights this week. They won by 56 points. The Ann Arbor men say frankly that their express purpose in coming over here on October 19 is to carry back that trophy. The Ypsilanti men give them no encouragement in this regard. After the playing had finished the Ann Arbor hosts treated the Ypsilanti Knights to a lunch.

MASSINE FOUND GUILTY

Italians Start Rush from Court When Black Hander Is Sentenced.

Saginaw, Mich., Oct. 7. — The jury which heard the testimony in the case of John Massine, black hander, charged with assault with intent to murder Joseph Costardo, Aug. 27, returned a verdict of guilty as charged. Judge William Glover Gage at once sentenced Massine to serve from twenty to forty years at Marquette prison, with no recommendation.

The horde of Italians who were interested in the case were present when the jury retired. When sentence was pronounced, the spectators made a race for the doors as Massine was led away, but no violence occurred, as the officers stopped them and compelled all to remain in their seats until Massine was locked up in the jail, opposite the courthouse. He will be taken to Marquette shortly.

THREATENED GIRL ELOPES

Young Niles Girl Leaves Note That Leads to Arrest.

Niles, Mich., Oct. 7.—"Dear father, mother and all: I am going to South Bend because I have been threatened of being killed if I don't marry a certain man. Come after me quick."

This note was found pinned to a pillow in the sleeping room of fourteen-year-old Eva Van Sant of Niles. The girl made her exit through a window and went to Michigan City, Ind., with George Koontz of Buchanan. The girl hired a rig at a local livery and the outfit was taken possession of by the police of Michigan City and the couple detained until the girl's father could reach there. Koontz will probably be prosecuted on the charge of abduction.

RECEPTION FOR STUDENTS IS WELL ATTENDED

At least one hundred students braved the storm last evening to attend the reception given them by the Presbyterian church and Sunday school. They were rewarded by a remarkably pleasant entertainment. The chapel had been prettily decorated with flowers and arranged to look like a drawing-room. As each entered he was tagged, and given another piece of paper, on which had been written another's name, leaving out all the vowels of the name. Each person had then to find out the person whose name, minus vowels, he had been given. This proved to be an excellent means of getting acquainted speedily.

The program was in charge of Roy McCullough and was very interesting. First, all were asked to hum or whistle "Old Black Joe." Mr. McCullough made a few remarks on the fact which perhaps had been patent that girls could not whistle. He followed his remarks with a recitation, "Why girls can't whistle." Fred Reinhart sang two solos. Miss Ruth Merriman and Miss Hefner played a piano duet, "Silver Bells," and Miss Vivian Gilpin sang. J. Stuart Lathers read Riley's "Jim," and for an encore, "Socrates setting the hen." This demanding an encore, he told graphically of the fellow who was unfortunate in three respects. Miss Letha Trebelcock played a selection by Thome, "Simple Confession." All joined in singing "Juanita," and those who couldn't sing, whistled.

The Westminster Guild then passed about popcorn and apples.

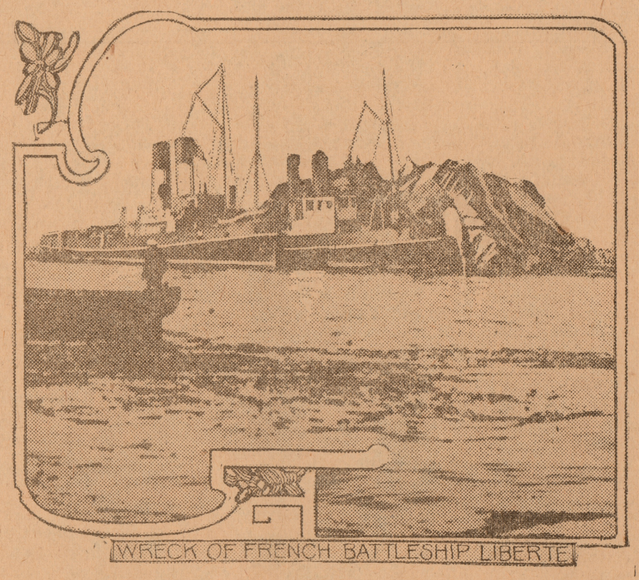
FIRST PHOTOGRAPH SHOWING TERRIBLE HAVOC WROUGHT BY EXPLOSION OF BATTLESHIP LIBERTE



WRECK OF FRENCH BATTLESHIP LIBERTE

Toulon, France, Oct. 7.—At the funerals of the 250 members of the crew of the French battleship Liberte, destroyed in the harhor by an explosion, a wreath with a broad ribbon of black was placed by the coffins of the dead in the name of the American navy, which thirteen years ago suffered a similar disaster in the blowing up of the battleship Maine in Havana harbor. Comparisons of photographs of the Liberte and the Maine show that the French ship was more completely wrecked than was the American vessel.

TWO DAMS BREAK AND FLOOD LAND

Great Volume of Water Sweeps Black River Valley.

WISCONSIN TOWNS DAMAGED

Hatfield and Black River Falls, Unprepared for Aqueous Visitation, Suffer Severely—Hundreds of Houses Washed Away.

LaCrosse, Wis., Oct. 7.—Hundreds of houses have been washed away, their occupants have fled to higher lands to save their lives, and it is feared many are dead from the breaking of two big dams on the Black river, as a result of floods that have swept this entire territory.

But for a warning sent out earlier in the day it is declared the loss of life would have been terrible. The towns of Hatfield and Black River Falls suffered most. It is the worst disaster in the Black River valley.

Men on horseback rode ahead of the waters after the dams broke and warned citizens to flee to the highlands. Black River Falls was least prepared for the catastrophe. Many houses went out there as soon as the torrent struck. It is not known how many of their occupants were carried away.

Reports from Hatfield indicate that all there probably escaped, although residences and business buildings were carried down the valley.

At 2 p. m. the Hotel Tremont, a three-story brick building, the leading hostelry in Black River Falls, and a half dozen other big buildings in which the principal businesses of the city were housed, were washed out. They were undermined and collapsed.

The east side of Water street has been swept away by the current passing around the west side of the concrete dam. The soft ground on which the business portion of the town stands, is being cut away and there is no telling what the result of continuous flooding will be.

At 12 o'clock the telephone operator at Black River Falls, a city of 2,000 people, the county seat of Jackson county, ten miles below Hatfield, reported to headquarters here that water was surrounding the telephone building, that people were moving out of houses in the lower part of town and that it was dangerous to remain longer. Thereafter it was impossible to raise Black River Falls on either telephone line connecting it with LaCrosse.

Relief parties are being hastily organized here, scouts are being sent out among the farmers warning them to take to the high lands and preparations are being made to combat the higher waters expected at all villages along the Black river, North Bend, Melrose, Holmen, Onalaska and LaCrosse are placed where the effect of the sudden rise in the narrow channel of the Black river will be felt today.

Two Dams Go Out.

Chippewa Falls, Wis., Oct. 7.—Two dams went out in this city and one at Bloomer and the country is flooded in every direction. The Chippewa river has raised eight feet in ten hours and is overflowing its banks and water is running in the streets as a result of an eighteen-hour downpour of rain.

Two thousand feet of main track of the Minneapolis, St. Paul and Sault Ste. Marie railway, eight miles west of this city, has been washed out and there is also a bad washout near Colfax and landslides in cuts in the vicinity of Albertville have covered the track.

Washouts Tie Up Traffic.

New Richmond, Wis., Oct. 7.—Traffic on the west end of the Chicago division of the "Soo" line, formerly the Wisconsin Central, is tied up by washouts between this city and Chippewa Falls.

DELEGATES ARE ELECTED

W. R. C. CHOOSE REPRESENTATIVES FOR CONVENTION TO BE HELD OCT. 18 AND 19.

Mrs. Bert Bunton is to be the first delegate, Mrs. Niles the second, Mrs. Kimball, the first alternate, and Mrs. Frank Joslyn, the second alternate.

The W. R. C. will be inspected the first meeting in November by Mrs. Nina Redfield of Jackson.

A supper was served the G. A. R. and their wives later in the afternoon and this was attended by about forty.

DAMS AND DANGER

The two disasters which have overtaken the residents of two river valleys in Pennsylvania and Wisconsin during the past week are bound to focus the attention of the people upon the necessity of safeguarding life and property very much more securely in the construction of the power company dams than has been done in at least some places. We of the Huron valley are interested in this very problem

The Edison company has acquired most of the water power rights, as we understand it, in this valley. They will undoubtedly build bigger dams than any that have been constructed. If the one is built below Ypsilanti which has been long talked of, it is claimed that it will back up the water almost, if not quite, to the city limits, and probably as far as they have the right to back it without interfering with the flow from the municipal dam. There will be undoubtedly several larger dams above that one, in addition to the ones already constructed If a great volume of water should be accumulated up Ann Arbor way and some heavy storm or succession of them such as we have been experiencing during the past few days should cause that great volume of water up stream to let go, a disaster would overtake the inhabitants of the Huron valley, almost as inevitably as it overtook the inhabitants of "death valley" in Pennsylvania and Wisconsin this present week.

We are compelled to take judicial notice if we are to properly protect ourselves against these disasters, that the timber has been largely taken from off the face of the earth and that the swamps and lowlands have been drained and that, consequently, the waterfall from a big storm, sweeping across a large area, is accumulated with very much greater rapidity in the streams which nature has provided than was the case when the woods and the undrained depressions acted as reseroirs to check the rapid transit to the sea.

To be sure the inhitants of the Huron valley have never been damaged by floods. The banks of the river are high—sufficiently high to take care of such floods as nature has thus far visited upon this section. But when a group of inland lakes are created in the Huron valley and one or more of these upper lakes gives way, it seems inevitable that the inhabitants at least within the valley down stream are liable to suffer a disaster and at present this would probably be the heaviest right in the city of Ypsilanti for the real banks of the Huron then would probably become what the first banks of the Huron probably were and which are now designated by Prospect avenue and Summit street.

PROCEEDING OF THE COMMON COUNCIL

OFFICIAL REPORT

Ypsilanti, Mich., Oct. 2, 1911.

To the Honorable Mayor and Common Council of the City of Ypsilanti:

Gentlemen—Att the time the cemet walk was constructed, adjoining the property owned by E. A. Dicks at 113 Grove St., South, as I am informed, it was laid at a grade then given by the City Engineer. This walk is at least four inches below the proper grade and whenever there is a storm the same is impassable, owing to the water which stands thereon. The same defect applies to other walks adjoining it but to a lesser extent. We therefore petition your honorable body that said walk be relaid at the proper grade, without expense to the adjoining property owners.

ACKNOWLEDGE IT

Ypsilanti Has to Bow to the Inevitable—Scores of Citizens Prove It.

After reading the public statement of this representative citizen of Ypsilanti given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

H. V. Deitrich, electrician, 322 Maple St., Ypsilanti, Mich., says: "I can speak in the highest terms of Doan's Kidney Pills. I have used them and they have been taken by other members of my family, all of us receiving benefit. There is no other remedy as effective as Doan's Kidney Pills in relieving pain in the loins or other troubles caused by the kidneys. We procured our first box of Doan's Kidney Pills at Weinmann-Matthews Co.'s Store and always intend to keep a supply on hand." (Statement given December 19, 1908.

Permanent Results.

Mr. Deitrich was interviewed by our representative on September 20, 1911, and he said: "The benefit Doan's Kidney Pills brought me has been permanent and consequently, I think more highly of them than ever. You may continue to use my former testimonial whenever you desire."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Truth About "Midnight Oil."

People talk about the midnight oil as if it had some virtue attached to it. In truth, four times out of five, the midnight oil is mere over-work, or means that you have neglected some duty to which you should have attended before the sun went below the horizon.—Edward Everett Hale.

Not at Home.

A New York lawyer sent his office boy to deliver a note marked "Mr. Williams, Personal." In a few minutes the boy returned with his report. "Mr. Personal was not in," he said.

BOYS!

Now's The Time To Go Fishing

This chilly weather just makes 'em full of vim and fight—Say, but the're bitin' sassy—yes indeed—catchin' 'em all along the line now—both up and down the river.

T'aint any trick to catch fish—just look pleasant—have a good outfit—line, reel, steel pole, and pail of minnows—say, it wouldn't be a bad idea to put one of these artificial baits in the box—by George, the fish are all taken up with 'em.

A word before closing—Don't start unless you're properly equipped—remember that this store is headquarters for everything in the fishing tackle, gun and ammunition line.

AUCTION

Monday, October the 23rd

Having sold our farm, a public auction will be held on Monday, October 23, at the farm. It is located one-half mile south of the village of West Sumpter, in the township of Sumpter, Wayne county. It is about four miles southeast of Willis.

At this sale will pe put up practically everything except the registered Holstein cattle. Announcement will be made from day to day in this space more about the offering.

I am reserving for private sale the choice registered Holstein cattle, and I want to talk about these offerings in this space for the next few days. I would much rather have this stock remain in this part of the country than to have it go away into other states. Its value was recognized yesterday in a carload which went to the East Tennessee Experment station, a department of the University of Tennessee. An expert selected this stock, and he selected it only after he had looked elsewhere extensively. One of the animals out of this car will start immediately in the state agricultural car and travel all over the state of Tennesee to help instruct the farmers of that state in better and more profitable lines of husbandry.

The parting words of this expert were: "Whatever you do, don't part with Woodcrest DeKol Lad." He is the senior herd sire. I hoppe to be able to persuade one or more of the breeders in this section to keep him at home. His dam and his sire's dam have official 7 day butter records of over 26 pounds. His sire has over 80 daughters in the advanced registry. Sixteen of his sisters sold at auction at an average of $510.00 each. One of his daughters becomes the show animal in the Tennessee Agricultural car; five other daughters become foundation stock for the state institution. He has been tested and his worth established. He is right in his prime (4 yrs. old). He is worth $1,000.00. He can be bought for $300.00.

Seven Months of Artificial Light In the Home

Sight is one of the most precious possessions of men, women and CHILDREN.

During seven months of the year, most of the close application of eyesight in your home is by artificial light.

Is the artificial light in your home good or bad?

Before the long evenings come when the family gathers near the LIGHT—look into this matter carefully.

ELECTRIC LIGHT is the best light in the home. It is economical and it is far more convenient than any other form of lighting.

Insurance companies rank electric light the safest.

Better have an estimate made for house wiring. Telephone No. 1.
